25X1

1. Improvements and enlargements are being carried out within the naval base's area in the Coal Harbor. Piles are being driven in for new wharves and dredging is in progress.
2. At Eichstaden in the southern section of the Coal Harbor, there are two bunkers. The one to the south is in good condition. The second, which lies about 100 meters further north, is under repair. To the extreme north of Eichstaden there are four mobile Soviet antiaircraft batteries with a caliber of about 70 millimeters; they are towed by American-type trucks.
3. At the fishing harbor, on the western side of the sea-approach, there are two well-camouflaged antiaircraft guns.
4. On the beach west of the sea-approach and about 100 meters from the shore line, there are three or four permanently installed antiaircraft guns.
